

Introduction to energy management

How can you reduce the impacts of rising energy costs on your business?

To help you understand how your business uses energy and identify opportunities for improvement, Nambucca Shire Council, working with the NSW Government, is running an *Introduction to Energy Management* course.

This practical and interactive workshop provides a step-by-step approach to realising energy efficiency projects and savings in your business. You will learn how to:

- understand your business' energy use;
- identify and implement improvements to reduce energy costs in your business;
- put into place a practical energy plan for your business to take action and reduce costs;
- adopt a long-term approach to the management of energy for your business.

[Sign up](#) by 15 February 2019 to receive 25% off; discounted price is \$75. Lunch included.

Registrations are limited to 20 participants. Full cost is \$100.
